The dark character of the music generally means it would likely suit Science Fiction, Horror Movies and Video-Games quite well, as some aspects of it can be quite chilling, especially tracts of music for strings. Other possibilities exist such as music for Drama, and some sections quite suitable for Thriller / Action / Fantasy type works. In The Opinion Of The Composer, Many Of The Works Might Also Be Suitable For Sea / Sailing / Maritime Style Films. For ads, because of the large volume of original music available, it's possible to easily find something suitable to fit a 15/30 second+ advert, or compose it from scratch. Whether light or serious - whatever you are trying to sell, whatever you are trying to communicate, there will always be something that fits and adds to your brand.

Reasonable rates. Please contact “music [at] mipublishing [dot] ie” today with your proposal. Or get in touch by phone +353 86 406 1111. (Number may also receive SMS text messages). Thank you for your patience in waiting for a reply which should issue promptly.
