- Full solutions available including orchestral recording solutions \*
- Foley / Sound-effects / Sound-synthesis and Sound-processing solutions
- Secure file upload/transfer facility
- UHD Video production/editing facility available
- Secure payment and delivery facilities
- Music supervision services

\* As available. Irish studio session rates guideline (should you wish to avail of them): starting at €3000 per 50 min orchestra recording time, which in turn will produce up to 8 mins of recorded music. Chamber ensemble and solo performers rates are significantly less. Prices available by request - please email. Tax reliefs may be available for certain Film & TV projects in Ireland, please check with your accountant.

*The dark character of the music generally means it would probably suit sci-fi, horror movies and video-games quite well, as some aspects of it can be quite chilling, especially tracts of music for strings. Other possibilities exist such as music for Drama, and some sections quite suitable for Thriller / Action / Fantasy type works. For ads, because of the large volume of original music available, it's possible to easily find something suitable to fit a 15/30 second+ advert, or compose it from scratch. Whether light or serious - whatever you are trying to sell, whatever you are trying to communicate, there will always be something that fits and adds to your brand.*

**Fair/Reasonable rates.** Please contact "music [at] mipublishing [dot] ie" today with your proposal. Or phone +353 86 406 1111. (Number may also receive SMS text messages). Thank you for your patience in waiting for a reply which should issue promptly.
